BRASS UNLIMITED BEGINS NEW "HOME SERVICE DIVISION"

Brass Unlimited, formerly located on Woodward Avenue just South of 14-Mile Road, has begun their new and most modern method of fireplace equipping! Of most importance to any one even remotely interested in buying fireplace fixtures, this new service might be called "Optical Vision" buying. In other words, when you call Brass Unlimited, they bring their fine display of better quality fireplace fixtures right to your home. You select the style you like best, and then the pieces are taken right into your home so you can see exactly how they look in your fireplace. Actually a custom-tailoring of fireplaces, the new service does away with hit-or-miss buying. You don't have to make a trip to a store and try to visualize how your selections will fit in your fireplace and the other furnishings in your home. The new mobile unit equipped by Brass Unlimited shows more than 30 distinct models of andirons with fire-tools made up to match. Eight different styles of fenders, curtain screens, flat screens, folding screens, log holders, coal hods and fire lighters are also shown. Irregular size screens in any shape are made to order to fit your fireplace, too. All measurements are taken by Brass Unlimited which relieves the buyer of all this detail and responsibility. Special size screens, with solid brass frames, are made by the Chamberlin Co. of America and are considered the finest screens available anywhere. Mr. Uniland has specialized in equipping fireplaces for more than 12 years. Getting the proper size fixtures, the right type screen, and making the entire grouping harmonious to the rest of your room is of utmost importance. With this thought in mind, Brass Unlimited has discontinued all other services except the buffing, polishing and lacquering service for which they are known. Selling only solid brass fireplace fixtures continues with the new Home Service Division. While solid brass costs a little more, the only important damage that can happen to it is tarnishing, which can be cleaned off. Brass-plated fixtures have a patina of brass color on steel or cast iron, and this will flake or peel off as a result of the heat from the fire, or from just general atmospheric conditions. With very few exceptions, no stock is now carried by Brass Unlimited. In this way, whatever is ordered comes to you in a spic and span newness right from the factory. You, as the buyer, are the original owner of your fireplace fixtures or pieces that are otherwise damaged, repaired or refinished. Deliveries are quite good as the suppliers for Brass Unlimited are cooperating to the fullest. Custom built screens are requiring about two weeks' time, while the balance of the fixtures may be had in one week to ten days' normal delivery time. Brass Unlimited now sells by appointment only. Their Birmingham telephone number, 4540, is still effective to the fullest. When you make an appointment with them, they will send their fine display to your home, morning, noon or night. A special lighting system for the mobile unit provides light under all conditions, and makes your selection of fixtures a pleasure.
