## Our Printing Department.

Is not a side-line with The Eccentric as is the usua case with newspaper plants. Yes, the time was when this was true here. But in the last 20 years the picture has completely reversed. Our newspaper volume is only about 10% of our total business. Our printing facilities are as extensive as metropolitan plants—it is only in location that we are suburban in characteristics. This "subyrbaness" includes neighborly, friendly, informal buyer-seller relationships—alertness—yet calmness; personal attention—not frenzied confusion.
