No Shortage of Space

Just north of the twin buttes in the background, near Arco, Idaho, the Atomic Energy Commission is planning to set up its half-billion-dollar atomic energy reactor installation. The commissioner will have plenty of room in the vast, flat wasteland to work on its project to develop an atomic-energy-powered engine for naval craft.

Among Your Thoughts of Gifts for

Mother's Day

Should be one of a subscription to

The Birmingham Eccentric

If Mother lives in Birmingham, or if she has lived here in the past, she would undoubtedly welcome a subscription to the Eccentric and bestow her extra special blessing upon you for 'being unusually thoughtful. Perhaps Mother lives many miles away now and is lonely for her old home and friends. She'd love to get a message from them each week. Or, perhaps she is still here and for some reason has neglected to subscribe. She'll appreciate your thoughtfulness in subscribing for her.
