Hunters' Notes
According to the reports of the returning hunter, it seems as if one must go way up north to an almost inaccessible place to get your buck. That is just what N. Hadley did this year. He and E. J. Delahanty went up to French River, Canada, and on the first day out Hadley shot his buck. The season opens earlier up there and they were eating venison chops before the men around here started out.

David Hasse returned from Grand Rapids last week and although his dad had already returned from a hunting trip, the two took a few days for a return trip. Their luck was the same as most of the men from around here, and they returned empty-handed. The Spragues returned without a buck, too.
