Letters to Santa Claus Reveal Christmas Wishes of Birmingham Youngsters

And now for the wishes from Quarton school. The boys and grins there finished their letters off in great style, and they are already in the hands of Santa Claus and his special Office Eires.

We know that they have passed the word along to the workers he has on his huge staff and that the paint brushes have been flying like mad. We'd almost say, too, that what you boys and grist housely was nothing but the busy whirring of the many sewing machines. Right now the package are being wrapped and tied with prefix provided in the package are being wrapped and tied with prefix provided in the package are being wrapped and tied with prefix provided in the package are being wrapped and tied with prefix provided in the package are being wrapped and tied with prefix provided in the package are being wrapped and tied with provided in the package are being wrapped and tied with provided in the package are being wrapped and the overy little dolls.

Not write the busy whitring the names on the grift tags, too. But, have a follow and grift the package are being wrapped and tied with prefix provided in the package are being wrapped and the work of the many sewing making clothes for all the lovely little dolls.

Not write the busy whitring the names on the grift tags, too. But, he will be some on the grift tags, too. But, he will be a some time the package are being wrapped and wrapped wrapped and wrapped
