We Heard It Said By:
George Thurston, South Woodward grocer: "This new state parking law is hurting all the merchants in this end of town. We either have to spend money to build parking lots, or lose customers. There are a lot of us who are suffering from it, and maybe some of us will even be run out of business if certain doesn't seem fair."

You'll be making a Winner this winter!

LIGHTLY spur that Buick thoroughbred of yours. Feel it surge ahead with a sure-footed stride, stepping out in front to set the pace — with never a murmur or complaint.

Yes, you can have quiet, lively horsepower like this, and a chassis that's free of stiffness and winter squeaks — if you let us keep your Buick in tiptop shape.

Take lubrication, for example. For the price of a routine "grease job" elsewhere, we turn our Buick-trained men loose on a complete, tailor-made lubrication service from hood latch to trunk handle. They make a regular habit of extra care, such as dropping a spot of graphite on the carburetor heat-control shaft, or using a special, non-sleeve-soiling lubricating stick on your door strikers—and we could list a dozen more.

The point is, these mechanics are Buick specialists of long and patient experience — they know your Buick and its needs better than anyone else — and they take pains to keep you happy with it. Yet you don't pay a penny more. Why not drop in this week?

Cold Wave Coming?

Let us set a date for checking over your cooling system sometime this week. Here's our prescription for protection:

Drain radiator, engine block and car heater — flush out summer sludge. Inspect radiator core for leaks. Check hoses for deterioration or loose connections. Examine thermostat control. Adjust fan belt tension. Tighten cylinder head. Put in genuine Buick antifreeze.
