**Windy Sure "Stopped The Show"!**

The other night a bunch of us were over at Judge Cunningham's watching a swell vandeville program on his new television set. It came in fine, but just once, the screen got a little streaky.

Before the Judge could touch the knob to bring it into focus, old Windy Taylor starts fooling around with the antenna connection: "I can fix that!" he says.

Windy fixed it all right. He "stopped the show" for us, and Buiz Ellis had to come over and do a \$20 repair job. I understand

**Tips on Touring**

By Carol Lane

Women's Travel Authority

This year 80 percent of all vacation travel is being taken by automobiles.

Americans, more than any other nation of people like to get out and do things on vacations and they've found the family car gets them there with the most pleasure, economy, and freedom of movement.

And, as American families gradually realize that they are entitled to vacations away from home and a bit of moral right to escape from the routine of day-to-day living, the knowledge of how best to take vacations is increasing.

Americans are learning, for example, that it's best to travel light for freedom and comfort; that there are many ways to economize on such items as food (with car picnic lunches) and lodging (tourist courts) and clothes (outfits with double or triple utility).

And we've learned the trick of seeing more, too, by taking time to investigate interesting spots along the route; by taking our children on little educational side tours through factories, museums, parks, etc.; by planning trips well in advance of leaving day.

The average American looks forward to his vacation, knows what to do with it once he has it, and can do it because he lives in a free America.

**MOMS Tag Day Set for September 24**

The local MOMS chapter has been given permission by the city commission to hold its annual tag day on September 24.

A request from the Oakland County Animal Welfare Society for a tag day here on September 17 was turned down with the suggestion that it be held either in August or late October.

The policy of the city commission is to permit only one tag day a month.

**For a Family Reunion**

Ham loaf is ideal for a family reunion meal. Be sure to use equal amounts of fresh and smoked pork, so the loaf will be nice and juicy. Condensed tomato soup adds a good flavor when used as the liquid. Serve horseradish sauce as an accompaniment.

By THE KINCAIDS

Safety engineers admit the problem in teaching traffic laws to Americans is that most believe in luck. We believe in luck the way kids believe in the Easter Rabbit. We realize traffic accidents happen... but we don't think they can happen to us. That's wrong as an idiot's ill-considered answer. We're all as vulnerable as a wire pigeon in a shooting gallery. Luck is good, but sometimes it relaxes. It's better to be cautious and safe than to be daring and play tag with the obituary column. Every time you disobey safety rules, you bet your life, or someone else's. And it isn't worth it.

The Rev. Harold E. Towne, rector of St. James Episcopal Church, announced the new \$150,000 church addition now under construction. The new structure, scheduled for completion in October, will include much needed addition to church reading capacity as well as increased parish house facilities. Ten classrooms, choir, robing rooms, youth meeting rooms, a new large kitchen and hall for organizational functions and dining will be included.

It's so hot in London that Officials of the House of Lords were allowed to remove their heavy wigs. This is no time for bit-headed decisions. You'll be making a wise decision now to help make THE KINCAIDS, 213 East Maple Ave., your gift headquarters. Quality merchandise at a Savings! Phone: 301.
