**The Busy Nelsons**  
The Nelson family on Riverside drive are always busy, either coming or going and even when they stay home they are still active. This time, Marion, the 12-year-old, is up in Metanora visiting the N. S. Haddley who have summer home (in fact quite a large farm) up there. Diana Nelson is off on a two-week trip with her sister, Marie Marie Dupuis. First they traveled to New York, then to Montreal to visit their sister, who is Sister Edmund at the Mother home in Montreal.

**Consider Improving of Bowers Street, Hunter to Adams**  
Detailed plans for the improvement of Bowers street, from Hunter to Adams, will be drawn up by the city engineering department for consideration of the city commission.  
In approving the preliminary study Monday night, commission-ers recommended this action after considering City Manager Donald C. Egbert's report that the State Highway department is considering installation of a new traffic signal at Hunter and Bowers. An assessment district for improvement of Bowers, from Woodward to Hunter, already is in progress. The program, if adopted would also mean cutting through the Hunter island to provide for through east-west traffic.

**Good Luck, Mickey**  
We feel sure that lots of Mickey's friends will be pleased to hear that he is steadily improving and hopes will be up before long. Last Easter Mickey Sempowski of Riverside Drive was put to bed with rheumatic fever. Mickey has been a wonderful patient and his mother says he has romped every model train they could buy and is now working on cars. His aunt, Mrs. A. K. Rodolph, has been visiting him and has now returned to her home in Corpus Christi, Tex.

**Economy is Also a Cadillac Word!**

OVER THE YEARS, there has come into being what amounts virtually to a Cadillac vocabulary.

There are literally scores of words which, applied to automobiles, call Cadillac almost instantly to mind. Few can hear such words as "Character," "Prestige," "Quality," "Craftsmanship," "Distinction"—and a host of others—without associating them with Cadillac.

But there is one potent word which applies with equal emphasis to Cadillac—but which motorists, in the past, have not so readily associated with the car.

That word is *Economy*.

With its marvelously efficient new high-compression engine, the 1949 Cadillac delivers gasoline mileage which actually approaches that of the popular low-priced cars. It is almost unbelievable for a car so large and luxurious.

And, of course, Cadillac dependability and long life have become traditional. In fact, the full life-span of a Cadillac has never been accurately measured.

Yes, "Economy" is also a Cadillac word and belongs in the Cadillac vocabulary.

Have you inspected and driven a 1949 Cadillac? If not, you owe it to yourself to do so—for it is truly a revelation in what a motor car can be and do.

You are most welcome to visit our showrooms.
