There's the smile when you slip the selector lever into Driving notch—and realize that's all there is to do. There's the smile when you swing smoothly up to cruising speed without halt or check or break of stride. There's the smile at traffic lights when you halt, wait, then move away with never a thought about shifting. But the broadest grin of all comes at the end of a long day's drive and you find you've covered more miles more easily. Even your treadle-foot—so likely to become tired and cramped maintaining an even speed in digress-drive cars—appreciates the fluid ease of Dynaflo. For Dynaflo Drive is not merely a new transmission. It's a new experience—a new luxury in driving. In ten minutes you are handling it like a veteran—in two days you wouldn't be without it.

Small wonder, then, that Dynaflo is the drive with which all new developments in transmissions are compared. Not merely "something better," it is something entirely new, the first exciting chapter in a whole new book. Go learn for yourself how abundantly rich in pleasure every gallon becomes when you have Dynaflo. Your Buick dealer will be glad to demonstrate—glad to quote delivered prices—glad to talk terms of as fine a deal as you could want. And you'll find glad surprise in the delivery dates he is now mentioning.
