181 Additional Gas Space Heating Units Allotted to Birmingham-Bloomfield

According to David L. Brown, division manager for applications for gas space heating received on or before the deadline date of June 14. However, the division can add only 4,918 installations at this time. To distribute these fairly and to make sure that every applicant has an equal chance to secure space heating, a lottery system was instituted. This was solved by that breaking down the quota on a meter basis for the four service areas of the company in the Pontiac Division. The Royal Oak area was allotted 1,333—this figure arrived

at from 1,058 units allotted Royal Oak-Huntington Woods-Pleasant Ridge-Royal Oak Township-Southfield/Township; 455 units to Ferndale-Hazel Park-Parkville; 299 units to Berkley; and 181 units to Birmingham-Bloomfield. The Pontiac area, embracing the cities in the north end of Oakland county and the City of Pontiac was allotted 1,062. The Plymouth area, embracing the Northville-Wayne-Farmington area, was allotted 455, and the Westland area, embracing all of the villages and communities in South Macomb county, including Mt. Clemens, was allotted 1,405.

Fair to Everyone
The next step was to break down each service area into sections so that the ratio of applications to installations that can be certified will be fair to everyone who wants gas heat this year. Applications in each section are numbered consecutively from 1 up. Assignments of certificates will be made on the basis of the order of which each number appears on this master list. When the quota for each section is assigned no more numbers will be drawn for that section except on certificates are cancelled or refused. Whenever a cancellation is received by the company from a

A public drawing was recently held in the Royal Oak Office of the Consumers Power Company, in which several officials from neighboring municipalities participated. E. M. Sturtevant, city manager of Royal Oak, drew the first number to be assigned a gas space heating approval certificate in the Royal Oak-Huntington Woods-Ferndale-Hazel Park-Parkville-Plymouth-Pleasant Ridge areas of Birmingham-Bloomfield.

The holder of the first number drawn in Birmingham was Joseph C. Bell, 831 Lakeview drive.

James McCoy Heads Local Jaycee Unit
Junior Chamber of Commerce officers, installed at a recent dinner meeting, include James McCoy as president for the coming year with James Cole and Harry Meredith as vice-presidents. Herbert Gardner, Jr., was installed as secretary and Ray Munde as treasurer.

Board members for the year will be Charles Elder, Henry Houston, William Kennedy, Richard Mavis and Harry Smart. Ed Pool, past-president of the club, with officers and newly elected board members, comprised the entire board.

During the meeting of merit were presented to Cole for his Christmas activities; Harry Meredith for his service on the boxing committee, and William Kennedy for the annual party which the group sponsors.

In accepting his office, McCoy commended the retiring officers and board members for their work.

Legion Officers
At a meeting of the American Legion Charles Edwards Post 14, held recently the following officers were elected: commander, Jack Emerson; first vice-commander, Jim Martin; second vice-commander, Ronnie Hall; finance officer, Howard Brettmeyer; sergeant at arms, C. Groves; chaplain, Bennett Brown; historian, Richard Dewey and Charles Howard was appointed adjutant by the new commander.

section the certificate will be assigned to the holder of the number in that section, that is next in line on the master list. This method gives everyone an equal opportunity to receive gas heating service.
Install Within 60 Days
As a service to the customer Brown stated, that he intends to have each certificate delivered by a member of the space heating department who may be able to give the certificate holder helpful information. The certificates will be dated on the date of their delivery.
Space heating equipment must be installed within 60 days from that date, and written notice, upon completion, must be sent to the company, on or before the end of this period, unless an extension is granted by the company in writing.
Brown was emphatic in warning the public not to buy any equipment until they have physical possession of their gas space heating approval certificate. He further urged that great care be exercised in the selection of equipment and the firm who installs it.
He suggested that the best way to protect your own interests is to purchase equipment only from an experienced, reliable dealer. He pointed out that in 1945 and 1946, before the shut-off on May 10th, many space heating customers were sold unsafe equipment, much of which had to be replaced.
