Women have invaded the bowling game the country over. In fact, one of the biggest beachheads has been established right here at our alleys. We suspect the reason for this is the quality of our equipment and our clean, pleasant surroundings and courteous service.

Franklin Student Among Winners in "America the Beautiful" Art Contest

Michael Nichols, 11, sixth grade student from Franklin School, has been notified that he is one of the nine first-place winners from Michigan in Milton Bradley Company's nation-wide "America the Beautiful" crayon art competition for kindergarten and grade school students. Michael is the son of Mr. and Mrs. Kenneth Nichols.

Michael's drawing, titled "The Main Highway", was selected by a jury of nationally prominent art authorities as the best of those submitted in the sixth grade division from schools all over the state. He and the winners in the eight other grade classifications will receive mounted engraved plaques in recognition of their achievement. National winners, chosen from state winners in each grade, will be presented with $500 government bond scholastic fund awards.

50,000 Drawings

Judges for the annual competition are art editors of leading national publications. The judging was conducted at the Waldorf-Astoria in New York. More than 50,000 drawings were entered.

It is hard to say who is the more excited about Michael's success, he or his teacher, Florence Renton, under who guidance fledgling artists from Franklin school prepared their entries. Florence Renton, school principal Marsden Wilson and other teachers throughout the country are largely responsible for the success of the program, which has literally made dreams come true for hundreds of talented youngsters.

Nation-Wide Exhibit

Inaugurated in 1946 by Milton Bradley Company, Springfield, Mass., toy and school supplies manufacturer, the "America the Beautiful" competition is designed to stimulate interest in child art, both among the general public and the students themselves. Leading figures in the art and educational fields have hailed the program as one of the finest mediums yet devised, not only for discovering and encouraging young artists, but also for bringing vital training in artistic appreciation into its proper perspective in the schools.

Best drawings from the state and national winners will form an exhibit which, as in past years, will tour the nation's art galleries, museums and schools. Previous exhibits have been displayed at the Art Institute of Chicago, Minneapolis Institute of Arts, Buffalo Fine Arts Academy and the Brooks Memorial Art Gallery at Memphis.

Girls vs. Boys

After an undefeated basketball season, Coach Vincent Secontine's gym all-stars have been formally challenged to a volley ball contest by Mrs. Margaret Henderson's girls' team. The game is scheduled to be played sometime soon in the Baldwin gym.
