Revise Part of Building Code

City building code requirements regarding allowable stresses in iron and steel used in local construction were revised Monday night by the city commission.

The new standards were identical to those maintained by the American Society for Testing Metals.

Local Fire Laws Strengthened

Since the state law places the responsibility on the local fire department, Birmingham's fire prevention ordinance was revised Monday night by city commissioners.

Under the revision, the local fire chief may prohibit certain types of hazardous heating, lighting and/or cleaning and dying appliances using inflammable liquids.

Nasty!

The bachelor was paying a visit to the house of a friend, a married man, and found himself rather bored by all the talk about the son and heir of the house.

"Just fancy," said the adoring mother. "He's only 17 months old and he's been walking for nearly nine months."

"Really," said the visitor wearily, "don't you think it's about time he sat down?"

1949 Silhouette

The exaggerated lines of the New Look are due for satisfaction in the "1949 Silhouette," according to Parisian designers. Restraint and moderation keynote this black and white shepherd's check town dress by Jacques Fath, who was responsible for many of last year's grotesque fashion lines. The twin spiral of sequins ends in a deep point on the left seam of a slender skirt. White pique plays up the ultra-feminine collar and cuffs, and an outsize yellow felt hat adds color to the ensemble.

Vicinity Kiwanis Clubs to Sponsor Public Lectures

A joint meeting of the boards of directors of the Birmingham and Southfield Kiwanis clubs was held Monday evening in the Ruth Shain room of the Community House. Plans were discussed whereby the two clubs will jointly sponsor a lecture series to be held in Birmingham, beginning in the fall.

The lectures will be given once each month, on a Thursday evening, in the auditorium of Baldwin high school. The series will be similar to those which are held in the Art Institute in Detroit.

"We feel the people of Birmingham and vicinity will be interested in being able to attend such lectures in their own community," James Sterling, vice-president explained.

The committee which is working on the plans includes Nick Rakas, Sid Huff, Rev. Reginald Bexell, Cliff Wright and Mel Kirkland. The details will be completed this week and appearance dates will be available shortly.

Those attending the formation meeting included Clarence Clohset, Les Allbright, Ed Pugh, Roy Rauch, Fred Arzt, Jim Sterling, Bill Thorburn and Tom Ward from the Birmingham club. Dick Klinger, Leo Walton, Lee Stowell and Andy Broad were present from the Southfield board of directors.
