If you drive a Cadillac, the sketch above tells a story. Somewhere on the streets or highways you bring your car to a velvety stop to give a "lift" to a youngster whose thumb is pointed the same way you are—and you watch his face light up as he settles down beside you.

"Boy, a Cadillac!"

You know, without asking, what is going through his head. He's dreaming of the day when he himself grows up to man's estate and has a Cadillac of his own.

It is only natural, of course, that Cadillac should occupy this unique place of honor in the dreams and aspirations of American youth—for Cadillac is the only

car in America whose name and crest have been reserved exclusively for cars of the very highest character. It is the only fine-car name that has meant the same—for a decade after decade.

This year, the Cadillac name has a special luster—for Cadillac cars are powered by a great new V-type engine—the creative masterpiece of Cadillac's renowned engineering division. Performance is so brilliant, from every standpoint that it simply must be experienced in order to be believed.

Why not experience it yourself? You are welcome in our showrooms at any time.
