So - - you want to publish a book.

It's surprising how many people in an area such as Birmingham are embryo or full-fledged authors.

They are authors of poetry, fiction, genealogies, corporation procedures, biographies, labor-management treatises, etc.

Over the years we have produced many cloth bound hard case, sewn books for such people.

It's the old story of people thinking of The Eccentric as just newspaper publishers.

Remember, you're always welcome!
