"Pull up a cake of ice, and let's chew the fat."

You don't know "just how to say it?"

We find many folks have an idea which they want to put into the form of a piece of printing, but they don't know just how to start with.

In most cases we can, within a short time, take the problem and transform it into an attractive, effective folder or pamphlet—with layout and finished copy. Although this is rightly the job of an advertising agency, it usually is too minor for their attention.

It isn't magic—it's just years of experience that gives us the touch to do something which seems strange to others. So, next time you want help and you need our cooperation... don't hesitate to bring your "problem" to The Eccentric. You're always welcome.
