**Like Action**  
"They have a wide variety of things they want to draw, but seem to like boats and animals the best. Dolls are pretty popular, too, and one of my little girls asked if I might illustrate a story she had read."

**Self Criticism**  
"It's fun working with them. They criticize each other's work—and mine. They don't hesitate a moment to tell me what they consider wrong with a picture painted by a famous artist. They all are enthusiastic and seldom get bored. Of course I try to keep the lessons short, so they won't, but some of their studies are pretty dull."

A popularity contest will be eliminated Saturday by the crowning of the king and queen of the high school at the carnival. The following are candidates for the title from the entire high school: twelfth grade, Dolores Karkow; eleventh grade, Phillip Karkow; tenth grade, Dolores Karkow; ninth grade, Beverly Solem and Jim Philip; eighth grade, Dorothy Wilsynski and Pat Cornish.

### Young Artist Has Fun Teaching Art To 8 Youngsters

By Alice E. Morgan

Joan Schaffer, daughter of Mr. and Mrs. Paul Schaffer, 855 E. Maple is, we believe, one of the youngest art teachers in the country. A senior at Baldwin high school, she has a class of youngsters ranging from six to ten years. The group meets at her home every Saturday for instruction.

Joan, herself, does not recall the time she became interested in painting. As a very young child she began to "work

under her mother's influence. Mrs. Schaffer is a well known artist and art instructor. As Joan grew older she became more and more interested in art and began developing her own particular style. Today she has her own easel and is teaching a class of embryonic artists and an idea in her head that she may continue work in this field with her board and on-lookers responding to the urgings of their stomachs and took time off in search of food. Finally two local League members could stand it no longer, and they too departed.

As they left they muttered a promise to the remaining supervisors from Birmingham. Sure enough, the two ladies soon returned, bearing some very well cooked hamburgers and hot coffee. According to Mrs. Lewis, it was the first time in history that a picnic has been held in the supervisors' room!

Experiments by Navy scientists have scuttled rumors that aircraft jet engines make noises in a sonic range harmful to humans. In extensive tests with volunteer "guinea pigs" it was determined that the jets have no bad effects on the human body at any operating range.

General society news deadline is 5 p.m. each Tuesday.

### Two LWV Members Save Supervisors

Mrs. Hope F. Lewis, 739 Lakeview, reports she has discovered a new talent among the ranks of the League of Women Voters. It seems they not only try to improve conditions in the city, county, state and nation, but are willing to provide for the individual, as well.

Last Monday's session of the Oakland county board of supervisors, of which Mrs. Lewis is a duly elected member, was dragging out, as time after time ballots were cast to fill the office of auditor. One by one, members of the board and on-lookers responded to the urgings of their stomachs and took time off in search of food. Finally two local League members could stand it no longer, and they too departed.

### Big Beaverites Hold Halloween Party

At the Halloween party sponsored by the PTA and businessmen of Big Beaver, the B-10 Boy Scout council fire was highlighted by an authentic Cherokee Indian war dance. H. Van Hendricks, a part Cherokee Indian, held the crowd gathered around the council fire spellbound with his menacing tomahawk and a spectacular leap through the council fire flames.

The following people were awarded prizes for their costumes: Danny Kaye, Jim Brown, Roosevelt Kedrow, Gary McMenna, Henry Aiken, Judy Mattatal, Penny Rawling, Catherine Cather, Gerry Baskie. Marcia Diamond, Brenda Brown, David Pete, Betty Sampson, Marilyn Schumhorst, Barbara Sayers, Sharon Goul, Barbara Wood, Car-
