E. L. Karkau, assistant to the division manager of Consumers Power Co., this week told Birmingham Editorials that the "bigness" of public utilities will never get out of hand where public opinion and regulations are such strong forces.

"Bigness in our gas and electric business is a socially indispensable technique and is responsible in substantial measure for our security as a nation and our high standard of living as a people," Karkau stated.

Classes will be conducted each Monday evening with the exception of Oct. 21, between 8:00 and 10:00 p.m.

Four courses are being offered for credit. In the adult field, Mrs. Mrs. Samuel Simpson, registrar of the Michigan Council of Church Women, will conduct a course on "The Prophets and Their Messages." The underlying purpose of this course is to discover what value there is in the messages of the Old Testament prophets for people today. The reforms for which the Hebrew prophets struggled and the conditions in their day, relations, in religion and other affairs which each prophet faced will be studied in this course.

## Berkley Man Says It's Unbelievable

How can we get relief and be cured of body ailments, by spiritual treatment and diet in a proprietary system, will be told to anyone who is willing to try, at no cost.

Andrew Shostack, 5114 Cumberland, Berkley, Michigan, took part in a seminar on "Proprietary System" in Detroit in 1940. He was rejected by the shop doctor for diabetes, severe high blood pressure, etc.

A friend handed me a book which explained how to get well by diet and spiritual treatment. I acted as directed by the author who freed herself from a long standing case of cancer by her own method after the doctors had given her up.

This experience of hers was passed on to others with great success, and to me. Not only did I get well, but I have a signed statement by the doctor that I am normal again. I have lost 15 pounds and an gland of it for it was mostly debris poison, an accumulation of 37 years.

What correct diet will do is stated also by Dr. Michael Sonenogor, Biologist of the Jewish Hospital of St. Louis, in the Detroit News of September 19, 1940. "Salt is 'Insulin' eventually will poison the patient and keeps him constantly in pain. It is the cause of disease, and that is poison. Remove the cause and you build new pure blood."

Mother Nature is fair to all who give her the right material to work a cure in a prepared system.

Suspicious Character: "All right; search me!"
