Sure You Haven't A "Blind Spot"?

As I was driving down Main Street last Saturday, another car swung out right in front of me. It turned out to be Buck Blake. He wasn't going fast. It was just that he had something else on his mind at that particular moment.

Buck's really one of the nicest fellows I've ever known. But, sometimes he gets to day-dreaming on the road. He sort of gets a "blind spot" to what's going on about him!

Now, lots of normally considerate folks have their "blind spots."

Only one word fits it - Wonderful!

YOU know how it usually is—slow and steady is the rule in automotive progress. But every now and then it happens. Along comes a car that's new all over—like this one—and headlines sing the news.

Take the styling of it—fresh and smart and really exciting from its non-locking bumper-guard grilles to the jet-plane look of its fenders. Take the outward size of it—handy in traffic, easy to garage, actually more room and a sweeter ride in fewer over-all inches.

Step inside—and stretch yourself in the biggest interiors ever found in a Buick Special, with a full twelve inches added to rear-seat hiproom. Try the power of big 110 or 120 hp high-compression Fireball engines—sample the restful levelness of a ride that sets the standard for the industry.

Check controls—and note really big news: The luxury of Dynaflow Drive*—newest, simplest and smoothest of all modern transmissions—is optional equipment, available now at the lowest price level yet!

Finally, look at the price tag. Measure its figures against others—and see if any car, even in the lowest-price field, gives you so much of what you want for each dollar you invest.

Tops in style, tops in room, tops in lift and lift and traveling ease, a trip to your Buick dealer will show you this is wonderful in value too! For the biggest buy of this year—and many a year to come—better go now and get your order in!
