### Meet to Discuss Needlework Guild Ingathering

Officers of the board of the Birmingham-Bloomfield Hills branch of the Needlework Guild of America met last week to discuss plans for the year's activities. Standing, left to right, are Mrs. William L. Graham, chairman of the ingathering; Mrs. Ruth Saunders, chairman of distribution; Mrs. William F. Thomas, Jr., assistant secretary and Mrs. Donald Bell, vice-president. Seated, from left to right, are Mrs. Marvina Kirm, honorary member; Mrs. William Breech, secretary; Mrs. Benjamin Brewster, president and Mrs. Carl Whirl, treasurer. Others present were Mrs. C. C. Patterson, Mrs. Robert Woodruff, Mrs. Homer Hyde, Mrs. Paul Hoffman, Mrs. Lawrence Howe and Mrs. Kenneth McGregor.

The local branch will hold its annual ingathering on Tuesday, Nov. 8, at the Community House. At the ingathering the garments which have been donated are brought in, sorted and packed for distribution to the agencies which the Guild seeks to help. The Red Cross, Oakland County hospitals and many charitable organizations are the recipients of these garments. Members donate the clothing and a member is anyone who wishes to give two new garments in the same size or two items of household linen—the only qualification for membership. The morning of the ingathering, a breakfast for members will be held at the Community House.

### When a bump's a daisy...

... watch it vanish under Packard's famed "self-controlling" Limousine Ride!

Until you've experienced the silent, gliding restfulness of this roomy Packard—you're just not up-to-date on fine car comforts!

Packard calls it the "Limousine Ride," because many of its advancements were first developed for the magnificent Packard Limousine. But the first and foremost secret of its superiority lies in Packard's costly "self-controlling" suspension system. "Self-controlling" means it compensates automatically for changes in load and road. "Self-controlling" means it combines relaxing smoothness with firm, level-keeled roadability. "Self-controlling" means it won't develop "baby-buggy bounce" in its later years!
