A Big Boost For Smitty!

Stepped into Smith's Department Store the other noon and saw the strangest thing, "Sis" Davis was coming up the stairs from the basement with a bundle of wash. "Is Smitty taking in washing these days?" I asked. "Not quite," she says. "He's just put in a new automatic washing machine, so the girls who work here can get their laundry done while they're eating lunch. Means more time to relax at night and on weekends."

I thought what a swell how Smitty must be. Human relations between the boss and employees have certainly taken a big step forward during my lifetime.

From where I sit, people seem to be doing a better job of seeing our neighbor's viewpoint these days. Through his ideas and tastes may not be ours, we can understand his preference for a certain breakfast cereal, a favorite movie star, or for a temperate glass of beer or ale. That's the way it should be in a free country.
