of **BARBECUED FOOD**  
—Every Day!!!

### HERE'S ROTIS-O-MAT THE MODERN BARBECUE

It's a Rotisserie for home use, with an automatic revolving spit. Not only that, but you'll get the tenderest, juiciest roasts you've ever had — easily and quickly. There's a 3 position flat grill, too — for broiling steaks, chops — for grilling — for roasting! It will take up to 10 pounds of poultry or meat. It's portable! — so bring it to the table if you like. It'll be fun to watch your food, through the heat resistant glass sides, deliciously turning a perfect golden brown!

Come In and See How It Works

**TREE FARMING**—Near Escanaba, Mich., forestry agent William A. Klender, left, shows Fred Vasek, center, and William Sharkey, right, how to operate a tree planting machine that cuts down 10,000 trees daily in precise rows. The machine has stored farmers to a new interest in harvesting trees for use as paper pulp. To many of them on Michigan's upper peninsula the mechanical planter means reforestation, and a way to check erosion.
