If You've Earned It—Don't Hesitate!

Among the nicer things available for men and women to enjoy as they pass through life is, undeniably, a Cadillac car.

People who own Cadillacs are almost unanimous in their testimony that their cars give them constant pleasure and enjoyment—enriching their lives to an almost unbelievable degree.

Yet—there are countless people who have every right to be enjoying a Cadillac—but who, for one reason or another, are denying themselves the pleasure.

If this is happening to you—there must be a reason—and we think the following

paragraphs may prove to be of interest.

If you are hesitating to purchase a Cadillac because of cost—please remember that the lowest-priced Cadillac actually costs less than certain models of numerous other makes of cars!

If you are concerned about operating expense—remember that three 1950 Cadillacs recently averaged better than twenty-two miles to the gallon in an official test run of 751 miles!

If you are wondering about the cost of upkeep—draw your own conclusions from the fact that the lifespan of a

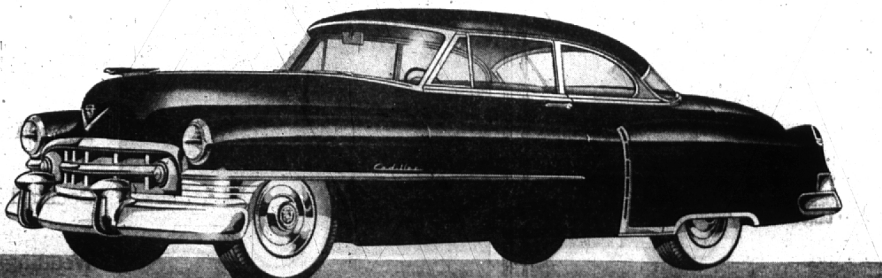

Cadillac has never been fully measured.

If you are afraid your friends might think you ostentatious if you were to buy a Cadillac—please be assured that owners have not found this to be true.

Yes, if you have earned it, there is every practical reason why you ought to be driving a Cadillac.

This would be a wonderful year to make the move—for never before were Cadillac cars so beautiful or luxurious.

Better come in and see us. We think you'd be surprised and delighted at how easy and simple it is to enjoy a Cadillac.
