Women Voters Seek County Action on Special Survey

A summary of a survey report which recommends certain changes in county administrative methods and organization has been offered the Oakland county board of supervisors by the four Leagues of Women Voters in the county.

Two of the more important changes suggested is the creation of an administrative code and delegation to the board of auditors the authority and responsibility for revising the present system of financial administration.

The original survey was made by the Public Administration Service of Chicago on request of the special committee on costs

EDWARD WATERHOUSE, Huntington Woods city manager, is chairman of the county's special committee, which includes David Levinson, a Birmingham supervisor.

Other leagues in the county, it is reported, will also hold study and discussion meetings to inform members and the public of the survey report's contents.

The league hopes to get the report out of the study stage by the board of supervisors and brought up for consideration.

According to the league, the "immediate steps" can be taken under present statutory and constitutional provisions. Other suggested improvements can only come through revisions of statutes or constitution.

THE BIRMINGHAM League's county government committee has prepared a special study material for league members and others on aspects of county government, called "Highlights on County Government," a ten-page digest of county government and the survey report of the Special Committee on Costs and Government. This digest, with the University of Michigan summary, is included in a study kit which the Birmingham league is preparing to supply. Publications chairman have been appointed for each of the study sessions.

The study sessions will be held at the Baldwin Public Library conference room at 9:30-11:30 a.m., 1:30-3:30 p.m., and 8:10-10 p.m. The 8:10-10 p.m. session will meet at the home of Mrs. Eugene Hens, 812 Ridgeway.

Publication chairman are: morning, Mrs. John St. Clair, 1045 Fairfax; afternoon, Mrs. James Allen, 825 South Bates; evening, Mrs. Richard Remer, 847 Madison.

Kits of study material may be picked up at their homes, or telephone calls will bring the material by mail.

A LETTER to the chairman of the Board of Supervisors from the Oakland County Coordinating Committee of the League of Women Voters, inquired into the possibility of obtaining copies of the survey report.

The letter points out the League has received requests for copies from schools, universities, libraries and newspapers.

It says: "Our committee believes a wider distribution of this report, at present the best source of information on Oakland county government, would serve in the interest of good public relations."

The letter also commends the Board of Supervisors for authorizing a survey report and for its "spirit of open-minded inquiry into the problems of the county."

General news deadline is 4:30 p.m. each Tuesday.

Petitions

234 cars between 4 and 5 p.m. Road engineering analysts have shown a gravel road can not stand up under a load of more than 100 cars per 24 hour period.

Money available from retirement of covered road bonds must first be used for repair of existing backlog before it can be used for new construction, it was explained.

A DESIRE to subordinate special interests in certain areas for the good of the community was evidenced when Walnut road may have to lose a few trees where ditches are needed unless the population becomes amiable. Public residents realize their paving must wait until there is a road into the community.

Whitner, a large property owner, has signed the petition. Thatch-stated Hayes and Broderick, trustees for the other large subdivision owner, will go along 100 per cent.

Indications of assent have been given by other large land owners. Petitions are now being circulated.

Parked Cars, Mud Hamper Firemen Answering Alarm

SOUTHFIELD TWP.—Muddy roads and parked cars are blamed by Fire Chief Alfred Kruck for adding to the amount of damage by fire at the James Martin home last Thursday. Kruck estimated damages to the upper floor and roof of the home at about \$15,000.

He said the department was forced to stop several times to move cars out of the right-of-way as they tried to reach 24500 Martha Washington drive in the subdivision.

Children passing the house at noon noticed the fire and ran to notify Mrs. Martin who was at the time telephoning to her husband at their stone quarry on 10 Mile road. She was unaware of the blaze.

BEFORE FIREMEN left the scene, they received an emergency call to 10825 Greenview where Leo Frassard, 48, had suffered a heart attack while spreading gravel in his drive. The men administered oxygen before taking the victim to St. Carmel hospital.

Kruck said it was becoming common practice, during the muddy seasons, for residents to leave their cars wherever they could find hard road.

"They are making it tough for us," he said. "Our having to drive slowly and stop often adds to damage done and endangers lives. These two calls could have been much more serious than they were."

THE YOUTH council in the youth council are aware of the great number of out-of-school activities in which local children may participate, she said.

"Q: It is a real problem for you young people to decide which program to attend on a single evening?" Mrs. Martin explained.

"The YMCA may have a program planned for teenagers on the same night that a dance is held at school or a meeting sponsored by one of the churches."

"If a young high school student likes basketball, he may play at school, in recreation groups, in Y programs, and so on, never realizing that Birmingham provides many other possible interests for him as well."
