USE THE ECCENTRIC WANT ADS FOR BEST RESULTS

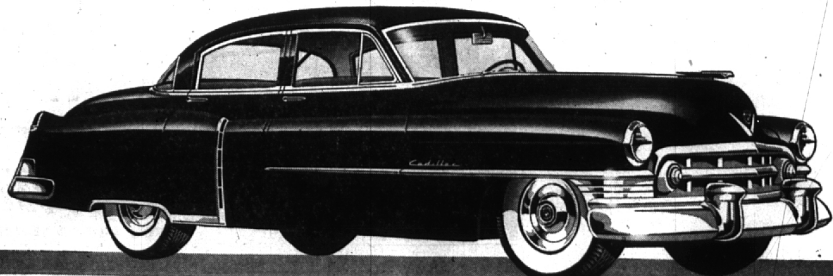

*When an Hour means Forever!*

Well, here you are—your hand on the beautiful steering wheel, the tip of your toe on the sensitive throttle, your thoughts on your favorite highway.  
 You're going to find out—for yourself—whether all these wonderful things you've been hearing are true.  
 A flick of the finger, and the great Hydramatic Drive is set for action. A touch to the throttle, and the power of the dynamic engine goes to the rear wheels. Softly and quietly, you roll out into the street.

What's this? A "Stop" sign! You take your toe off the throttle and put it on the brake—and you settle down to the softest, most reassuring stop you have ever experienced.  
 You look to the right and the left. The crossing is clear—and you touch the throttle.  
 You can tell you're going places—for the back of the seat comes up to press against your shoulders. But it's all so easy! From settled stop to driving speed is one continuous sweep—as if by automatic propulsion. Again and again, the big brakes bring you

to a velvet stop. Again and again, the great engine sweeps you into action with one continuous movement. Again and again, a round stretch of road rolls under the wheels and leaves you wondering where it went! Yes, it's true! This wonderful car's performance is equal to its prestige. You want it as much for what it does—as for the magic name it bears.  
 Come in and see for yourself. But it's only fair to warn you: Sit for an hour at its beautiful wheel, and you'll want this car forever!
