ADDING CHARM TO Your Home By Bill Wieland LOOK WHAT HAPPENS... when the nostalgic charm of grandma's old-fashioned kitchen is combined with the efficiency of today's magic appliances. In her wildest imagination grandma would never have dreamed it possible to have ranges like we have today, with time-saving automatic controls that take all the uncertainty out of cooking; refrigerators and storage freezers that are like having supermarkeets right in our own kitchens. Yet her kitchen was livable in spite of the fact that it answered many needs... kitchen, dining room, laundry. To conserve space in our small homes of today, it is often expedient to use the kitchen as a combination kitchen-dining room. The sketch above shows an effective decorative scheme for such a room. Small-patterned provincial-type wallpaper blends nicely with knotty pine woodwork and cabinets. Scalloped cornice of knotty pine provides attractive frame for window, permits full advantage of light. Deep blue linoleum on floor is repeated on splashboard. This background was planned especially to play up the warmth, friendliness and charm of the magic furniture. Drop-leaf table and benches provide adequate space for family dining. Hutch... a reproduction of grandma's favorite... has linen and silver storage facilities. Come in and see our furniture. We've gathered a selection that will meet both your taste and your budget requirements. Wieland's Interior Furnishings 523 N. Woodward Midway 4-2530
