PARKING LOT

There's been a lot of talk in recent weeks about "the buying power of the dollar"pust, present and future.

We con't foretell the future-but we can tell you this right now

You'll look a long way before you'll find a car that offers as much for the money as you can get in a 1950 Buick.

Close to half a million of these ears have been built and sold this year.

Close to half a million people have checked

their features and prices against the field and decided they'd better buy Buick

As to prices—they start down below some sixes, And whether you price the SPECIAL, the SUPER or the ROADMASTER, you'll find, on a cents-per-pound basis, that few other ears can touch them for value.

And this is for sure! When it comes performance—ride—the way they handle and hold the road—and thrifty use of fuel and oil—Buicks have never been focer.

That's another way of saying that coil

springs on all four wheels - Dynaflov compression, high-economy Fireball

So if you want your dollars to do extra duty - the time to act is now.

Look at the price tags - look at the features - sample the power and thrill that you get for your money and you'll know

Look at the Typical Delivered Prices on 1950 Buicks

MODEL 46D \$19230
