### Highest October Highway Fatality Rate in 10 Years

Michigan's October traffic death toll of 170 persons was the highest for that month since 1941, the State Police monthly accident summary reveals.

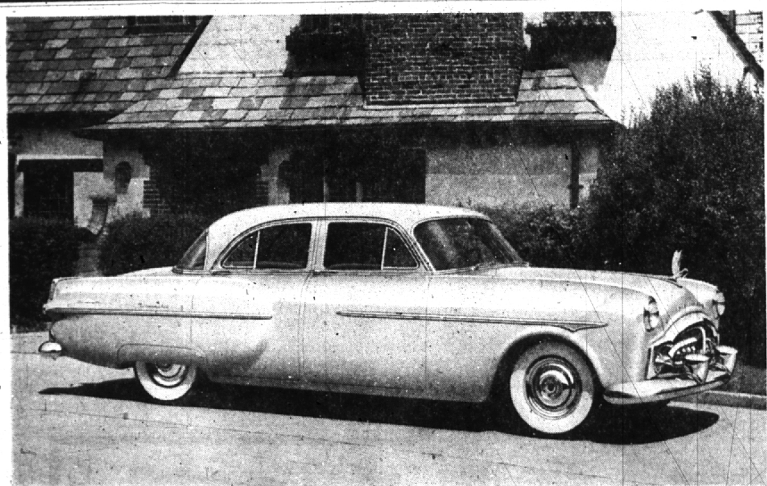

The report also showed 4,514 persons injured and 14,838 accidents.

An average of five persons were killed and 146 injured in 478 accidents each day. Added together, casualties were more than 150 daily. The death record was 28 higher than in October last year.

Rural areas accounted for all of the death increase and for the highest percentage of increases in injured and accidents. Urban deaths decreased, but injuries and accidents were higher.

The record for the first 10 months of the year shows 1,284 persons killed, 36,750 injured and 125,142 accidents. Compared with the same period last year, deaths increased 128 or 11 per cent, injuries were up 3,457 or 10 per cent, and reported accidents gained 10,678 or nine per cent.
