Lower-Priced Hudson

shatters old notions of value!

- Most Room
- Best Ride
- Safest
- Biggest Dollar Value!

HERE'S THE CAR that's turned the tide... the car that returns the greatest-*ever* value for the dollars you invest!

The new, lower-priced Pacemaker is a car you instantly see is the most beautiful of them all!

Free-flowing, low-built design telegraphs the fact that it has the lowest center of gravity in any American automobile. And you know instinctively that, as a result, the thrilling Hudson Pacemaker hugs the road more tenaciously and is therefore America's safest, best-riding car!

You quickly see, too, that this new member of the Hudson family has full road clearance, and more head room than in any mass-produced car built today—thanks to "step-down" design with its recessed floor.

And amazing head room is only one kind of interior spaciousness that's yours to enjoy in the new Pacemaker.

Through "step-down" design and ingenious use of space that is wasted in other makes of cars, this compact automobile of normal exterior width brings you seat cushions that are up to 12 inches wider than those in cars of far greater outside dimensions!

There's an extra dividend for you, too, in the brilliant, new, high-compression Pacemaker engine... a lightning-like performer with saving ways.

You are invited to see and try the Pacemaker. This new, lower-priced Hudson will revise all your ideas of motor-car value!
