May We Say It Again

We try often, as again we are doing, to overcome the widespread misconception that The Eccentric is a newspaper with an "incidental" job printing depart-ment.

50, as we start the New Year, may we emphasize that although The Eccentric is one of the ten largest weeklies in the country (among 11,500) our newspaper department represents less than 20 per cent of our total business. The balance, or 80 per cent, is commercial printing. In this field we rank among the ten largest printing plants in the Detroit area.

Our services include the finest four color printing and cover publication work, catalogs, books, price lists, automotive literature, etc., etc.

Yes, please, remember The Eccentric is both a good newspaper and a complete job printing plant. And we're also ready to answer your call for new and old customers.
