ADDING CHARM TO Your Home
By Bill Wieland

THE GROOM SAYS: "I DO..."

... want a dining room in our new home because I like the air of friendly hospitality a dining room gives a home.
There are a great many folks who share this new-fangled view . . . those who like to do a lot of entertaining and busy families whose only chances to get together are at meal-times.
Today's dining room has a personality all its own. Color and gaiety are its decorative key-notes. Not how the background in the room sketched above keeps the room to the nostalgic feeling of the early American style furniture. Dado and woodwork painted pale yellow enhance color value of French blue wall paper with small provincial pattern. Light filtered through two-tiered curtains of tanz-colored organza casts pale sunlight glow over room, highlights burnished lustre of smooth-garnished wood finish.
Table seats twelve when fully extended. Mobile serving cart can be wheeled into living room for cozy, intimate fireside supper for two. Furniture is open stock pattern so you can work out the combination of pieces best suited to your present needs, add more pieces as your requirements change.
Here is a gay, glad room where every meal becomes an occasion . . . a joy to family and guests.
Come in, won't you? We'd like to share the planning of the home of your dreams.
