Other Projects Get Priority Over Forest Paving, Says Egbert

Because of an urgent need for certain water and sewer installations, the paving of Forest, between Brownell and Hunter, must wait indefinitely, City Manager Donald C. Egbert said this week. "The city is having the fastest period of growth in its history, so there are several sewer and water projects the city must get out of the way first," Egbert explained to Mayor Donald S. Bell. "But we'll get to Forest as soon as we can."

Bell characterized the street section as the worst town and said it has been impossible to maintain it as a gravel street.
