Lowest-built...that's why Hudson means

Most room! Best ride! Safest!

NO MATTER what price you have in mind for your next new car, there is a Hudson right in your range.

And every Hudson series and model brings you exclusive advantages... possible because Hudson is the lowest-built car of all!

The secret is Hudson's exclusive recessed floor ("step-down" design). Through this new way to build automobiles, space wasted in all other cars is brought into Hudson's passenger compartment.

Most room! Seat cushions are up to 12 inches wider than in cars of greater outside dimensions—and there is more head room than in any other automobile.

Best ride! Safest! Right along with full road clearance, Hudson's recessed floor makes possible the lowest center of gravity in any American automobile. As a result, this remarkable car handles more surely, hugs the road tighter and provides America's best and safest ride!

There are many more Hudson advantages, including your choice of power-packed, high-compression, six- or eight-cylinder engines world-famous for stamina and performance... and acres of high-quality, long-life features that make "step-down" designed Hudson leaders in resale value, as shown by Official Used Car Guide Books.
