

# Decorating With Christmas Cards

THE habit of taking a hasty glance at Christmas cards to note the sender and then tossing them aside is not a very satisfying one for either you or the friends who graciously remember you with greetings.

This year, why not put your cards on display to preserve their warmth of feeling throughout the holidays, and to lend a bright Yuletide appearance to your home.

There are numbers of tricks for using Christmas cards in your decorative scheme. Try draping an arch or doorway in greenery, bedecking it with colorful cards as they arrive.

If your window curtains are a solid color, they'll serve as an attractive background for cards that have been attached to ribbons and hung from the curtain rods. A few sprays of greenery, tied with wide red ribbons, should be placed at the top of the window to give a finished look to your exhibit.

Homemakers are given assistance in finding interesting ways to display their holiday greetings by the manufacturers of the Christmas cards themselves, some of whose offerings this year can double as ornaments.

These include the cardboard variety, which fold flat for mailing, and a plastic kind, which may be removed from the card to add a sprightly sparkle wherever it's needed.

An archway, adorned with greens and holiday cards, contributes to a festive atmosphere and offers a Christmas welcome to entering guests.
