Army Nurse Arrives In Osaka, Japan

WITH THE JAPAN LOGISTICAL COMMAND IN OSAKA, JAPAN, Sept. 23—1st Lt. Rose Marie Grison, WMSC, arrived at Osaka Army Hospital September 18 and has been assigned as physical therapist.

1st Lt. Grison is an alumna of Elmira College, Elmira, N. Y., where she received her BS degree in 1930. She entered on active duty in March, 1945, and served most of her time at Madigan General Hospital, Tacoma, Wash. She is a resident of 558 Woodward, Birmingham, Mich.

DEAR CUSTOMER:

Now that we are all back from vacations—and the children are off to school and college—we have the time to sit back and think of the things we have to do, and dream of the things we could do to make our homes the way we would be proud to have them.

Believe me, NOW is the time to put those dreams into reality. First, because you are able to have doors and windows open while you are painting. Second, because we are now getting in our new wallpaper selection. Third, because Thanksgiving is only about 6 weeks away.

If any of these things are on your mind—come in and talk it over with us. We may be able to give you some money saving tips.

Best wishes,

Mrs. Mar.

Wanted—by Almost Half the People!

According to a recent widespread survey—almost half the motor car owners in the United States would choose a Cadillac, if they had their unrestricted choice.

This is, of course, a tremendous tribute to Cadillac, and to those who have designed it so well and built it so soundly for so long a time. But we think it is, equally, a tribute to the American people themselves.

Only a very small percentage of the American motoring public has ever owned or driven a Cadillac—or, for that matter, so much as enjoyed a ride in one as a passenger.

But that has not hindered the public in general from sensing the soundness of the Cadillac ideal—or from giving its wholehearted approval to the Cadillac crusade for quality. Where the effort is worthy—the American people approve.

We regret exceedingly that not every one who wants a Cadillac can own one. But we believe, sincerely, that many have needlessly denied themselves the pleasure.

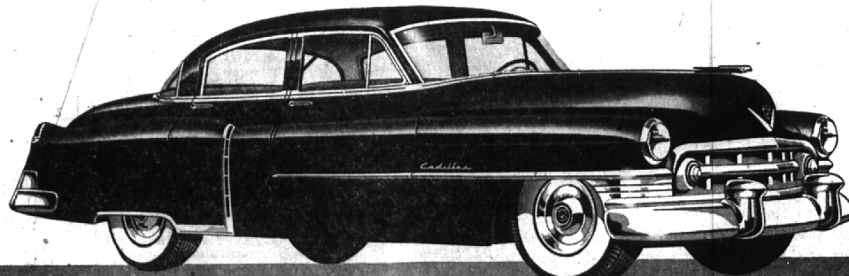

Cadillac cars are far more practical and economical to own than most people realize.

It costs less to buy the lower-priced Cadillacs than it costs to buy certain models of numerous other makes of cars.

Furthermore, a single tankful of gasoline will usually suffice for a whole day's drive.

And, of course, when it comes to endurance, a Cadillac stands alone—for its lifespan has never been fully measured.

Yes, for a very wide group of people, a Cadillac car is a sensible, practical buy. We hope sincerely that it is for you.
