FINANCE YOUR CAR THE FRIENDLY WAY

The purchase of a motor car today is a major financial transaction. But the problem is eased by spreading small payments over a long period especially, when you deal with a friendly bank whose chief aim is to help you through to the final payment. We are eager to serve you by easing your way with low interest charges and moderate payments. So, come to your friendly bank—a good place to seek aid in any financial need.

DRCP Section 12, 1969 BRCP Section 12, 1969 Looking for POWER? Better Buy Buick!

THAT bold bonnet that stretches out before your eyes on a 1950 Buick isn't there just for show.

Lift it up, and you'll find that the space beneath is abundantly occupied, by one of the biggest hoodfuls of power you'll find in

What you're looking at is Buick's modern version of the high-compression valve-in-head engine, which gains extra wallop from the fact that it uses the exclusive Fireball combustion principle.

We could list a lot of mechanical reasons why fuel gives up extra power in a Fireball engine—how it's wrapped in a swirling, ball-shaped charge—how it burns with a smooth, clean thrust that delivers maximum action.

means is to touch off the eager horsepower out on the highway by a gentle nudge of your toe—and feel your shoulders press deep in the cushions behind them.

Now all this sounds thrilling, you say, but how about the feed-bills for all these horses? How about miles-per-gallon?

Only BUICK has Dynasthou. Drive of and with it goes in MOHE. COMPASSION Fireboll velocished power in hires engines. New FASS argue in Surga models foreign. PATERN STITUM, with MULTICALINOY SIZE, togethrough foreign "REALING" REALING SIZE of the several impairs of the several

WHEN BETTER AUTOMOBILES ARE BUILT BUICK WILL BUILD THEM

The practical answer to that one is found in this year's experience with the SUPER and SPECIAL—and even the ROADMASTER.

In all three, the horsepower was stepped up at the start of the year-and in all-three, happy owners report the best mileage in modern Buick experience.

This is due to a little-known but authentic engineering fact-which is that an engine burns less gas when it doesn't have to labor. At any normal driving speed, therefore, extra power is extra thrifty.

So we say again—if you're looking for power—mighty power—buoyant power—silken power—thrifty power—better buy Buick

Your Buick dealer is eager for the chance to demonstrate how sound this hint really is.
