City Wants State To Continue With Access Drive Plan

City commissioners Monday night reaffirmed their opinion that access drives are the best traffic safety measure in connection with business development along US-10.

The matter came up in a discussion of the new Big Bear supermarket which has secured tentative approval from the state highway department for five combination entrances and exits off Woodward into two adjoining parking lots.

City Manager Donald C. Egbert said the state, under the proposal made to it by Big Bear, would put barriers up to prevent auto parking in front of the market.

COMMISSIONERS agreed with Ralph A. Main, who suggested a two-lane access drive be constructed, with no parking permitted on it. This would allow coppers to get into the lots, then leave by the alley, he said.

They instructed Egbert to convey their feelings to the state.
