The Distinction of

Custom Clothes --

No two persons have exactly the same physical measurements. A stock size suit for either a lady or gentleman will probably not quite fit. It will bulge a bit at the waist, or wrinkle under the collar. There is just something about it which gives it that "not quite right" look.

For so little more you can have your suits custom made for you alone. Custom clothes not only retain every graceful line of the designer, but they feel better. In a properly tailored custom suit you have the confident knowledge that your clothes are entirely right.

With hundreds of fine fabrics to select from, and with dozens of styles, you can have exactly what you want. You won't have to compromise, or take something which is not quite what you had in mind.

Scores of your neighbors are consulting us each week about custom clothes. Take a few minutes to look at our amazing selection of finer woolen fabrics, and let us tell you how the clothes are made. Prices start at \$75, for suit or topcoat.

And if you now have clothes which don't quite fit, bring them to the Village Store and consult with Mr. Payne. He's been a custom fitter for 38 years, and when he alters your clothes you may be sure they are right for you
