**IS THE KEYSTONE OF MICHIGAN'S AGRICULTURE**  
AGRICULTURE is Michigan's most VITAL INDUSTRY  
BUTTER is that industry's most VITAL PRODUCT  
The welfare of every man, woman and child in Michigan depends on the state's dairy industry represented by more than 132,000 dairy farmers with an investment of 2 and 1/2 billion dollars.  
One in every six families in the state is dependent for livelihood on the dairy industry. More than 600,000 derive all or part of their incomes from dairying. Income from dairy herds last year amounted to \$681,000,000.  
And this vast industry depends on butter for its solid foundation. Butter is the one dairy product which is a storable, staple food—the dairy product which absorbs excess production during the flush spring season and makes it possible to have a sufficient supply of fluid milk and other dairy products during the many months of low milk production.  
Without butter, the vital dairy industry would be completely out of balance—during many months of the year fluid milk would be scarce—prices would zoom and the public health would be jeopardized. Butter is of great import to every person in Michigan—it helps to keep milk production on an even keel. Farmers realize the great importance of butter for it means large dairy herds throughout the state. Dairying is the greatest soil conservation measure known to mankind.  
To keep Michigan prosperous and her people healthy, dairying must be maintained—milk provides one-fourth of all of our food. There is little wonder that thinking people want to protect the butter market against imitators who would help destroy Michigan's greatest industry for the sake of profit to themselves. And those who seek to wreck this state's dairy business for the most part have no interest in Michigan except to take her money away. Michigan is prosperous and a wonderful state to live in largely because of her excellent dairy herds and unsurpassed abundance of milk.  
Michigan's dairy industry has grown up with the state—it can be given a mortal blow over night by letting selfish imitators destroy the KEYSTONE of the industry—THE BUTTER MARKET.  
**MICHIGAN MILK PRODUCERS ASSOCIATION**  
A non-profit organization entirely owned and operated by more than 15,000 Michigan dairy farmers.
