

Poster Contest for Students Offered By Village Players

The Birmingham Village Players have again opened a poster contest to members of Baldwin High school. Any students interested in the project may participate and cash prizes will be awarded for the three winning posters, plus complimentary tickets to each of the entries. Judging for the winners will be on October 22.

The posters will carry information concerning the Players' opening show, "Good-bye My Fancy," by Fay Kamin. The production will be presented on October 20, 21, 22 and 23.

Publicity chairman of the group for this season are Mrs. William Kegel and Mrs. Wallace R. Ivers.

Have You Met . . .

Mr. and Mrs. Gordon W. Kingsbury from Detroit, now in their new home on Lashrup boulevard, Lashrup Village? Mr. Kingsbury is a special associate professor of advertising at Wayne university.

Monel, an alloy of 2 nickel and 1 copper, is now in general use for washing machine tubs, and for washers and other equipment in modern laundries. Being rust-proof and corrosion-resistant, it eliminates trouble from stains and veridgers.

Homemakers' Hints

Today, a surprising number of homemakers are finding the way to have comfortable, really attractive homes at lower cost. The answer? The roomy old frame houses just outside of town . . . the cottages at nearby lakes that can be bought for very little. A little ingenuity

— a wall knocked out here, new paint there — turns these bargains into beautiful year-round homes. First consideration, however, should be the right working equipment. Many homemakers are discovering a new fuel oil heater that may be placed right in the living room — matching other furniture designs — and heating the entire home inexpensively and very efficiently.

The heater is called Duo-Therm . . . giving thrifty, clean and work-saving all heat in homes without basements or central heating plants. It has a Power-Air Blower which circulates heat throughout the rooms and a thermostat control for heat regulation.

One reason why this efficient heater is so popular is that it is designed just like fine furniture. There are Sheraton and Hoppelwhite and Chipendale Models for traditional rooms . . . and smart blond designs for modern rooms. Each of them actually resembling a smart looking console.

There are styles for every purpose — for warm heating comfort in a trailer or a six-room house. No wonder so many homemakers — both in the city and in the country — are depending upon this economical, really thrifty way to warm homes in winter!

There is only one Little Folks Shop in Birmingham

Two thousand men and women, boys and girls will soon be the membership of our church. We account for about 12% of Birmingham's population. Nearly all wholesome walks of life are here represented — as a true segment of the townfolk. So, our building of a New Church is both a civic and a Presbyterian project . . . We have long since outgrown the old church, erected in 1917. No longer can we adequately care for the religious needs of our many little folk and young people. It is for them, that we undertake this big endeavor. We have the conviction that a church is no more effective, over the years, than the work it does for its CHILDREN—our CHILDREN. To them, we intend to pass on the heritage that is ours—before the inspirational dreams of youth are past.
