

We Heard It Said By—
Vincent Scantline, Birmingham high school football coach: "If we hope to get off to a good start for this season in the Eastern Michigan league, we'll have a difficult job cut out for us when

we play Mt. Clemens tomorrow. That team won the league title last year. We took a terrific physical beating from them a year ago and were lucky to tie 7-7. Mt. Clemens made 18 first downs to our three."

TEEN DREAM COME TRUE

Teentime is dream-time for that young daughter of yours. And you should do your best to provide her with an attractive room of her own to make those special dreams come true.
Of course in doing her room, be certain to consult her first, and follow her ideas about decorating as closely as possible. If she's inclined to be feminine and delicate, frills and bows and very tallie bottles are in order. If she's a tomboy, then it's bright plaids and bold colors.
Today we're concerned with the tomboy type room. Simply designed maple furniture goes into this setting, and should include a double bed (there'll be overnight guests!) Plenty of chairs are essential too, but bright-colored bolsters scattered about will easily solve the seating problem.

The illustration above shows the simple draping of colorful plaid... carried over to the un-draped dressing table with its separate mirror framed in matching material. The easy chair is discovered in one of the dominant colors of the plaid as are the lampshades, for the sake of accent. Cover the floor with a large rag rug. And paint the walls in solid, darker tones. (The essential decor is in the plaid.)
Comfort and harmony are essential here, and above all the reflection of her own personality. Let us help you to make the most of your ideas. We're always glad of an opportunity to talk it over with you.
