Baldwin Students, Faculty Enjoy Spring Vacations

Exciting vacations were not the exception but the rule for Baldwin teachers and students last week.

Most popular vacation spot was Florida. Basking in the sun at West Palm Beach was Al Premody, Ben Lake, John Burton, Jack Lewis and Don Goldsmith. They met earlier arrivals from Birmingham, Tom Luscombe and Brant Crammer who had spent several days touring Florida.

Sara Stringer, Joanne Pedder, Jane Boyd, and Howard Love spent the vacation at Ft. Lauderdale. Others who returned to Birmingham browned by Florida sun were Ronnie Facer, Dick Nyberg, Nancy Morse, Jean Stillman, Sally Wright, Marilyn Hines, and Sandra Henderson.

STUART SCHEIFELE visited his sister Kitt at the University of Arizona and then went on to California. Bill Dodds went to Phoenix and Miss Alice Price flew to Tucson.

Jack Goodman and Bill Chapel spent a few days motoring to New York City and Washington, D. C. Other visitors to the Capital were Carol Hindley, Julie Kelly, and Chuck and Jerry Ganley.

Denison college offered a preview of college life for Criss Adams who visited Betty Beardsley there. Martha Brown returned to her hometown in North Carolina to see old friends and relatives. Gail Haugan went to Minnesota.

Battling the cold winds of northern Michigan were Dave Bowen, Marc Joslyn, Ross Sanders, Harvey Peters, Jim Lurkins, and Gordon Converse.

Photos must be submitted by noon each Friday to insure publication the following Thursday.

Local Musicians Win High Ratings At State Festival

Soloists receiving superior ratings were Bill Berndt, cornet, and Joan Gassoway, oboe. Tom Masters, trombone, and John Doulton, flute received excellent ratings.

A cornet trio of Ed Nordtrum, Jerry Miller, and Stanley Thompson was credited with a superior. John Doulton, Lelia Barber and Carolyn McLeese composed a flute trio which placed in the good category.

Three questions to ask about any automatic drive—

Before you buy any new car today, ask these questions about its automatic drive . . .

Does it end clutch-pushing and gear-shifting? If the answer is "No," then it isn't as *simple* and *smooth* and *safe* as a modern automatic drive should be. (In Packard *Ultramatic*, there's no clutch-pushing—and no gear-shifting.)

Can I rock it in snow, sand or mud? If the answer is "No," then it isn't as *flexible* as it should be. (With Packard *Ultramatic Drive*, you can change *instantly* from Forward to Reverse.)

Does it cruise in solid, direct drive? If the answer is "No," then it isn't as *efficient* as it should be. (Packard *Ultramatic Drive* lets you cruise in *solid, direct drive at all cruising speeds.*)

On these three counts—and on *every* count—Packard's exclusive *Ultramatic Drive* leads the field. Come in—drive it!
