FAST, ACCURATE TELEPHONE SERVICE IS VITAL TO CIVIL DEFENSE

Warnings of approaching planes, com-
ing from air raid spoters or military
radar screens, are flashed over net-
works of Long Distance and local tele-
phone lines to Filter Centers.

Telephone reports are quickly
charted on Filter Center maps. Then
waiting Air Force intercepter planes
are alerted.

This is but one type of the many
special telephone networks serving
government and military forces to help
protect our nation.

This great and growing telephone
system was built to serve America in
peace. But it is just as ready to serve
in any emergency.

The value of this nationwide tele-
phone network was never greater—
never clearer—than it is today.

It must be kept strong. It is vital to
a strong America.

To help speed your Long Distance call, please give the operator the out-of-
town telephone number. • Telephone lines are busy with national defense.

Work Underway on Drilling of Test Well in Beverly Hills

Work on the six inch test well
in Beverly Hills got underway
this week, according to Southfield
Township Supervisor William Ro-
ser.

Installing the well is the Leary
Overlin firm of Detroit. If the
test well proves successful, a per-
manent 12-inch well will be dug.
Location is at the rear of Aca-
cia Park cemetery, between 13
Mile and Beverly roads.

Rosier also stated that drilling of
the well for the proposed fire
hall on Nine Mile work started
last week.
