

ADDING CHARM TO Your Home
By Bill Wieland

THERE'S ALWAYS A WAY

If we've heard this once we've heard it a hundred times: "I just can't do a thing with the room because of that window." Is the song a familiar one?

There are many ways to solve the problem... attractive ways. And money isn't the answer. Good taste, imagination and ingenuity will work wonders with a problem window.

In the illustration above the unwanted window becomes the center of interest in the room. It was used as a recess for a family picture and the huge chests keep it in perfect balance. Does it give you an idea of what you can do? A window valance with billowy drapes might solve your problem...

...or three or four shelves for knick-knacks... or a huge mirror. Perhaps a tip or suggestion from us will give your imagination a running start. You're welcome to any of our ideas on furniture or decorating problems. When you drop in and talk it over with us we'll be able to fit our ideas to your particular needs. Remember... we're always glad to see you.

Let's Chat!

Now it's 1951 . . . a new year. Good wishes to you and yours. Did you make any resolutions? I did not . . . but I have a promise to make in behalf of all Packers Super Markets. Throughout the New Year you'll get the best possible food values . . . and a guarantee of finest qualities in everything.

We have a sign in our office reading: "Beware of little excuses, a small leak will stop a great ship." Good thought there . . . so shop at Packers for extra savings.

Let's chat about Frozen Foods briefly. Quick freezing is the modern way of keeping garden freshness right to your table, you know—and super markets everywhere have, or are installing, complete frozen food departments. Quick freezing retains all the good flavor in fruits and vegetables and enables us to have out-of-season delicacies throughout the year. We have a well stocked Frozen Food Section at Packers . . . and you'll find the top brands in wide varieties. The famous Birds Eye . . . Libby's and both are good names that indicate quality.

Did you see the CISCO KID on television last Thursday night at 7 o'clock? We found a human interest story behind our commercial, and I think you'll be interested. For the past two or three weeks we had a contest on the program . . . with a new Murray Kitchen Range as the prize. Entries poured in and the judges came up with Mr. Alexander Campbell as the winner. Mr. Campbell lives at 115 East First and he is a judge, and was present before the television cameras during the program.

Our interest was aroused when we discovered that Mrs. Campbell is handicapped through falling eyesight . . . and has raised five sons. The Detroit Edison will equip the new range with Broyle controls . . . Mrs. Campbell will enjoy her new Murray Range. She is also now that her sons are CISCO KID fans . . . and that her husband entered our contest.

How do you like our Self Serve Meat Department at Packery Shoppers like the modern method of selecting their meats . . . and it does save time.

In Packers at 635 S. Woodward, the Meat Department features all your favorite cuts in prepackaged form. Pick them up . . . see what you are buying . . . choose exactly what you want. It's convenient . . . however, if you can't find exactly what you want, just ask for the "Special Cut Butcher" and he will fill your needs.

Prepackaging is done behind the scenes at Packers . . . and in a modern factory. Skilled butchers prepare the cuts. The packages are wrapped and sealed . . . and weights are supervised to be exact as marked. Everything is fresh, and, of course, you can always depend upon Packers quality.

I wonder if you know that we have many things in Packers that are usually found in the drug store. Popular items in cosmetics . . . dentifrice . . . shaving needs. The brands you like . . . and we have them in the drug section. Another time-saving reason for shopping at Packers.
