Describes Life in Post-War Munich
Attending University of Munich classes in overcoat, mittens and muffler during the wintertime was one of the interesting sidelights Birmingham Rotarians heard Monday noon from Edward O. Hascall, Jr., who spent a year in Germany on a Rotary Fellowship.

Hascall spent the past year in graduate study at the German university, and he told the local club, which originally sponsored him for the fellowship, of his interesting contacts in post-war Germany.

"THE UNIVERSITY buildings are heavily damaged, with most corridors" exposed to the outdoors," he said. "In the winter, there was little or no heat, so we wore overcoats, mittens and mufflers."

Student-professor classroom relationships lack the informality that exists in American universities, he said.

"There are no exams, no credit. You get up almost to the end of your work before you know whether you are going to pass," he said.

Regarding German economy, most everything is on the market, but the question is whether you have the money to buy it, Hascall emphasized.

"Good is fairly cheap, clothing is still expensive. Transportation is also expensive for many people. Unemployment is considerable," he remarked.

FROM A political standpoint, Hascall said the group that concerned him most was those who were "apathetic toward politics. They have been through sev-

LEGAL NOTICES

Authorized purchase of two desks, chairs, and typewriters.
Township Clerk

New Insurance Partnership Opens Here This Week
This week Edwin M. Beresford and Otis Thompson opened a general insurance office at 176 North Woodward.
Beresford, who lives at 885 Westwood, is a veteran in the insurance field. Thompson, 20680 Thirteenth Mile road, is a long-time resident of this area and was formerly in the real estate business. The new partners have bought the insurance practice from Louis Hascall. However, Hascall will still retain his real estate and property management business, and he will be affiliated with the firm.

Before you pay \$2400.00 or more for a new car — remember:
You're paying for a Packard... why not own one?

The more you shop around, these days, the more you realize that even the mass-produced, light-built cars are edging up into the Packard price class.

All of which adds up to a hearty invitation to you to step into your first Packard. Just check the plus-values you'll get:

Concept of automotive styling
Performance: New Packard Thunderbolt engines give you the peak efficiency of America's highest-compression engines. Plus: the service-free simplicity of a design with up to 25% fewer working parts than in engines of comparable power.

Roadworthy riding comfort: The silent Packard "Limousine Ride" with all its new advancements, is America's smoothest, most roadworthy ride.

Handling ease: You can actually steer a Packard, in traffic, with as little effort as it takes to turn a door knob. Come in—drive this great performer!

Functional design: The famed Society of Motion Picture Art Directors names the new 1951 Packard as the "car that embodies the most advanced concept of automotive styling"

It's more than a car—it's a **PACKARD**

Troy School Open House Scheduled for Aug. 26
Open house will be observed at the new \$600,000 Troy high school Sunday, Aug. 26 from 8 to 9 p.m., according to Stuart Baker, superintendent of schools. Location of the building is on Livermore near Big Beaver roads.

The two-story brick and cinder block building was constructed on a 23-acre site. Board of education officers were recently moved from the township hall to the school.
