MORE THAN 42,000 U.S. postoffices, including Birmingham, began using this new and more convenient money order form Monday morning. The new "parch card" M-O can be cashed in any postoffice, rather than the one to which it was issued as in the past. It also can be cashed in banks, just as regular checks are. Postoffices

will be relieved of a great deal of detail work through the new HIP, which is handled on one of the country's most advanced electronic business machines. Postal officials believe the new form will benefit both office and user in what has now become a five billion dollar annual business.
