We Heard It Said By:
MRS. A. K. TOEPFER, 839 Knox: "I'm awfully happy to see Birmingham getting started on the idea of a municipal swimming pool and hope it goes through. For a city this size we are certainly lacking in nearly all recreational facilities. Another thing I feel should be considered is the construction of more tennis courts. As it is, for swimming or tennis, people are forced to go out of town, a practice which could be eliminated by a proper program of recreation right here in the city."
