

Fancy Dresses for Spring Fancies

BY EDNA MILES

In spring a young woman's fancy also turns to thoughts of that age-old problem of what to wear.

Two answers to grace 1951's spring fashion scene are shown at left and at right—both specifically created for the junior charmer.

The cotton at left features enormous panier pockets, frosted with eyellet embroidery. The bodice of the Florida-fashioned dress buttons from waist to demure, round collar.

Tiny puffed sleeves and a full skirt complete the dress which is the sort of gayer than springtime creation for resort wear and other special dress-up occasions.

Dressier still is the glamorous party dress at left, fashioned from speckled, silky taffeta.

A coat-type dress, its flattering wing collar and velvet buttons produce a double-breasted effect. The hipline is full and gathered, broken by a wide self belt.

Either dress should make the junior miss a sure hit with the opposite sex as well as the envy of fellow fashion fans.

Equally as important, the creations embody good taste and so cannot help but to lend an air of discernment to the young lady's spring wardrobe.
