Group Tours Dairy Plant

Girls from the Birmingham high school health classes recently toured the Twisp Pines dairy plant as a project in sanitation for the health course.

The 74 sophomore girls visited the plant by bus in two groups with Miss Sally Reid, girls' health and gym director. The trip was arranged by the city health commission.

Included were views of the laboratory, bottling of the milk, and pasteurizing system.

After Gilbert Dunn conducted the group through the different processes involved in getting the milk from the depot to doorstep, the students were treated to milk and given souvenirs of the dairy.
