HIGH ON A HILLTOP

this colonial home is right here in town. There are trees, too, and a stream flowing in the valley below.

About the house? It's frame and it's not new, but it surely has been well cared for.

On the first floor. A living room 13'-8" x 20'-0" with a fireplace. The sunroom-library, 8'-0" x 11'-0". The dining room, 11'-6" x 15'-0". Kitchen with breakfast nook. Lavatory with new fixtures. A pleasant screened porch.

On the second floor. Four charming bedrooms, way up in the tree tops, and a white tiled bath.

The heating system is the ever-dependable American Radiator Steam Boiler (almost new, by the way) with a Scott-Newcomb oil burner. The house is well insulated and has storms and screens. Taxes only \$170. Attractive carpeting is included.

The price, \$20,500. It's a good buy. Let's see it today!

DIGNIFIED AND SPACIOUS

on a beautiful deep lot

Let's be sensible! We'd all like a nice new home but not all of us can afford current prices... right? Let's wait a few years for the new one, then, and consider "in-between" good values like this outstanding Colonial pictured above.

Modern? Certainly! The Kitchen is as nice as 1950... stainless steel sink with disposal and long work counters. And look! A modern first floor laundry-off the kitchen... a wonderful step saver. Adjoining lavatory.

Heat? A new oil burner and fan-forced air system. Economical, too... only \$282 annually for this spacious home. Storm sash help, too, of course.

Bedrooms? 3 nice ones and a sleeping porch on the second floor... with a roomy bath. (And for that older boy or girl who wants privacy)... there's a big bedroom on the third floor with another two piece bath. 5 sleeping rooms is the total!

Family fun outside with a deep lot, fenced and nicely landscaped. An out-door grill is floodlighted for evening meals. New overhead doors on the 2 car garage.

Makes sense, doesn't it? Only \$23,900 for all this living comfort. You'd spend twice as much for the same in a new home... can you afford it? Let's see it and talk things over.

Insurance should be tailor-made

Let us measure your insurance needs

Insurance has become more of a science than it was years ago. There are more kinds of protection now, and there are combinations of policies that can be made—often at a great saving.

There are new protections that you may not know about. Your insurance against many possible disasters may now be inadequate, in view of increased replacement costs of property. Even damage suits are bigger now.

Let us survey fully your current needs for protection against fire, wind, theft, embezzlement, accidents, damage suits, interruption of business and other risks.
