Cranbrook Award Is Given to Bolivian Scientist

Dr. Martin Cardenas, Bolivian plant scientist, was awarded the Mary Soper Pope medal of the Cranbrook Institute of Science Nov. 21, at a special ceremony at the Universidad Autonoma "Simon Bolivar", Cochabamba, Bolivia. The medal was presented for Cranbrook by the United States charge d'affaires in the presence of a delegation of United States congressmen.

The citation reads in part: "The Cranbrook Institute of Science, in awarding the Mary Soper Pope Medal for distinguished achievement in plant science to Dr. Cardenas, is honoring a South American scientist who has roots deep in that great continent's original culture.

"Because of the quality and magnitude of his labors toward the development of scientific, economic and social stability in his own country and in the world at large, the Cranbrook Institute of Science recognizes Dr. Cardenas as an eminently qualified recipient of the Mary Soper Pope Medal."

The award was established at the Cranbrook Institute of Science in 1946 by Gustavus D. Pope, in memory of his wife, Mary Soper Pope. It is given from time to time for noteworthy and distinguished accomplishment in the field of the plant sciences.

Saturday Program For Rinkydink Group Scheduled

The Rinkydink group of the Birmingham YMCA will make Christmas gifts as part of its craft program Saturday morning at the First Baptist church.

Besides engaging in group games and sports, the group will see colored films on the fishing industry and travelogue films on Tunisia and the East Indies. A series of cartoon films will round out the program.

Boys and girls 8 to 12 years of age can attend this program which meets each week from 10 a.m. to 12 noon.

Birmingham Boy Queries Governor On Civil Defense

Jay Lewis, 13, son of Mr. and Mrs. James Lewis, 657 Half Moon road, appeared on a panel of four Sunday evening, featured on "Meet Your Governor" over WXYZ-TV.

Jay, an eighth grade student at Holy Name, submitted the question, "What are the plans for civil defense, should a greater need arise?" Gov. G. Mennen Williams, in answering the question, outlined briefly what state plans have been made and how they will be executed.

JAY'S MOTHER, in commenting on the program, said she and her husband were very surprised when the boy was selected to appear on the program.

"We had no idea he had written the question," she said. "He's always sending questions in to the various shows and simply hadn't mentioned this one to us. Of course, we are proud of him and the serious attitude he has toward civil defense. Apparently these youngsters are doing more serious thinking than we give them credit for."

New School Equipment Purchases Will Include IBM Electric Typewriter

Purchases approved at last week's meeting of the Birmingham board of education included that of an IBM executive typewriter with proportional spacing.

The purchase was recommended by Supt. Dwight B. Ireland, who explained that after the shift is made to the new high school, the re-organization of the school paper will probably be planned.

"This machine," he said, "will enable the journalism class to prepare their material in a very reasonable form. Printing will be done using an off-set press and will be an excellent means of restoring our school paper."

The machine, for school purchases, is priced at $385.

Other purchases approved were for a library screen for the new school; cafeteria chairs, playground equipment for Franklin school, curtains for the Adams gymnasium and the purchase and installation of an amplifier at Quarton school.

If you don't want it, someone else does—sell it thru an Eccentric Classified Ad!

Detroit Specialist Will Address Poppleton PTA

Dr. Bernard Weschler of Detroit will address a joint meeting of the Poppleton PTA and preschool group on Dec. 5, talking on the proper care of children's feet and the importance of correctly fitted shoes.

Plans are already underway for the January meeting which will be a hobby show.

Unitarian Fellowship Plans Future Meetings

Mrs. Anne Garrison will be guest speaker at the Dec. 13 meeting of the Birmingham Unitarian Fellowship. Her talk will be on the South American way of life.

Robert A. Dearth, adult discussion group director, announced future plans for their programs at a recent board meeting. This group meets during Sunday school hours at the Apple Orchard Nursery school.
